To Whom It May Concern:

The purpose of this letter is to recommend Alan Baumann for employment as a Radiologic Technologist.

Alan has worked at Rappahannock General Hospital as a temporary contract worker ("traveler") for the past 10 weeks. Alan possesses the experience and skills necessary to maintain our department as the sole Technologist on off-shifts. His duties include general imaging of inpatients, outpatients, ER and OR cases. He exhibits a great level of competency and can be trusted to handle the complete range of cases we encounter as the region's principal acute care hospital. Alan is a cooperative worker and has demonstrated his ability to work without supervision. He exhibits attention to detail and strives for quality results in his images and patient care. Alan is positive individual well-liked by staff. His diverse experience is an asset to our department.

Alan has been a valuable part of our team and he is welcome back any time we have a need. I would highly recommend him to any facility seeking these qualities in a Radiologic Technologist

Sincerely,

Charles M. George, RT
Radiology Department Supervisor
Rappahannock General Hospital
101 Harris Drive
Kilmarnock, VA 22482
